Orientation program on Basic & Advanced cardiovascular life support

We Nandha Naturopathy and Yoga Medical College have organised An Educational program (First Aid) on Basic and Advanced Cardiovascular Life support (BLS & ACLS) techniques in accordance with Internationally accepted and recognised standards of cardiopulmonary resuscitation techniques for the students of Final year which was conducted by Target Institute of Medical Educational Sciences held on 18th and 19th of April. Students & staffs of NNYMC were given hands on training on CPR, Artificial ventilation, ECG and other techniques. Students of Final year were benefited and actively participated in the training module. We thank our management for providing us a new platform in upskilling our students.
